

Accessibility Statement for Aldenham Parish Council official website

www.aldenham-pc.gov.uk

Aldenham Parish Council is committed to providing a website that is accessible to the widest possible audience, regardless of technology or ability. We are actively working to increase the accessibility and usability of our website and in doing so adhere to many of the available standards and guidelines

We want as many people as possible to be able to use this website. For example, that means you should be able to:

- change colours, contrast levels and fonts
- zoom in up to 300% without the text spilling off the screen
- navigate most of the website using just a keyboard
- navigate most of the website using speech recognition software
- listen to most of the website using a screen reader (including the most recent versions of JAWS, NVDA and VoiceOver)

We've also made the website text as simple as possible to understand. [AbilityNet](#) has advice on making your device easier to use if you have a disability.

This website endeavours to conform to level Double-A of the World Wide Web Consortium (W3C) [Web Content Accessibility Guidelines 2.1](#). These guidelines explain how to make web content more accessible for people with disabilities. Conformance with these guidelines will help make the web more user friendly for all people

This site has been built using code compliant with W3C standards for HTML and CSS. The site displays correctly in current browsers and using standards compliant HTML/CSS code means any future browsers will also display it correctly.

Whilst strive to adhere to the accepted guidelines and standards for accessibility and usability, it is not always possible to do so in all areas of the website.
